

Manufacturer of the *Flexi* forklift

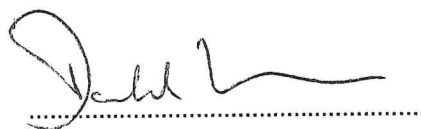

Quality Policy Statement

Our policy is to continue to grow our business and increase our global market share becoming the foremost provider of articulated forklift trucks for use in very narrow aisle applications.

This will be achieved by consistently providing products and services of the highest quality, reliability with the highest possible standard of after sales provision, whilst meeting all applicable statutory and regulatory requirements and exceeding customer expectations.

The above will be supported by implementing, maintaining, and continually improving an effective Quality Management System compliant with BS EN ISO 9001:2015.
